Roghaia Sadaf

Software Developer

Saudi +966 57 070 4641 roqaiasadaf@gmail.com Linledin github Portofolio

Summary

Software Developer with experience in building backend systems using .NET technologies and developing cross-platform mobile applications using Flutter. Skilled in C#, ASP.NET Core, SQL Server, and API integration, with a passion for creating scalable, user- friendly, and high-quality applications. Continuously learning new technologies and improving problem-solving and software development skills.

Projects

Clinic Management System

Full-stack clinic management system designed to solve fragmented appointment booking and patient record management. Built with Flutter, ASP.NET Core, and SQL Server, connecting patients, doctors, and administrators in one platform. Features include doctor search, appointment booking and scheduling, payments, notifications, medical records, prescriptions, responsive admin dashboard, caching for improved performance, centralized error handling, and secure JWT authentication with role-based access.

GitHub Code

4/2026 - 7/2026

E-Commerce (Mobileapp)

Small Store Management Application

Developed a small store management application using Flutter and C#/.NET following the 3-Tier Architecture pattern. Implemented product categories such as laptops, clothing, dresses, and mobile phones with product listing, pricing, shopping cart functionality, and automatic total calculation. Used a Hybrid Data Access approach combining ADO.NET and Entity Framework, along with Stored Procedures for efficient database operations and performance optimization.

GitHub Code

03/2025-7/2025

Driving & Vehicle License Department (DVLD)

A desktop application designed to manage driving licenses and vehicle registrations efficiently. Key features include applying for local and international licenses, managing applications, renewals, and tests, and efficiently detaining and releasing licenses.

Technologies: **.NET Framework(C#)**, **WinForms**, SQL Server, T-SQL, **ADO.NET**, with **3-Tier Architecture**

GitHub Code

09/2024 - 11/2024

Technical Skills

- **Programming Languages:** C#, C++ ,dart
- **Frameworks and Technologies:** .NET Framework, .NET Core, ASP.NET Core (Web API), EF-Core, ADO.NET, WinForms.
- **Mobile Development:** Flutter ,(Getx state management).
- **Database Management:** SQL, MS SQL Server, T-SQL, Database Design.
- **Version Control & APIs:** Git, GitHub, RESTful APIs, JWT, Swagger.
- **Data Handling & Practices:** LINQ, Data Structures, Algorithms, SOLID Principles, Design Patterns,clean architecture,CQRS
- **Soft Skills:** Problem Solving, Communication, Team Work, Attention to Detail, Time Management.

Education

University of Islamic Sciences of Ayoun **Ayoun- Mauritania** **Bachelor of Islamic economy - 2021**

Courses & Achievements

- Completed 29+ programming courses on **Programming Advices**, covering Problem Solving, Algorithms, Data Structures, C++, C#, OOP, .NET Framework, Database Management, SOLID Principles, and Entity Framework **08/2023 - Present**
- Solved **70+** easy-level problems on **LeetCode**, demonstrating strong problem-solving skills. **08/2023 - Present**

Spoken Languages

- Arabic (Native)
- English (Intermediate)
