Roghaia Sadaf

.NET Backend Developer

roqaiasadaf@gmail.com +966 57 070 4641 Portfolio Linledin

SUMMARY

Software Developer specializing in backend development with .NET technologies. Skilled in C#, ASP.NET Core, SQL Server, RESTful API development, authentication, and database integration. Experienced in building secure, scalable, and maintainable backend systems, with a strong focus on clean architecture, performance, and reliable API design. Continuously improving problem-solving skills and learning modern backend development practices.

PROJECTS

Clinic Management System 04/2026 – 07/2026

Full-stack clinic management system designed to solve fragmented appointment booking and patient record management. Built with Flutter, ASP.NET Core, and SQL Server, connecting patients, doctors, and administrators in one platform. Features include doctor search, appointment booking and scheduling, payments, notifications, medical records, prescriptions, responsive admin dashboard, caching for improved performance, centralized error handling, and secure JWT authentication with role-based access.

E-Commerce (Mobileapp) 03/2025 – 07/2025

Small Store Management Application

Developed a small store management application using Flutter and C#/.NET following the 3-Tier Architecture pattern. Implemented product categories such as laptops, clothing, dresses, and mobile phones with product listing, pricing, shopping cart functionality, and automatic total calculation. Used a Hybrid Data Access approach combining ADO.NET and Entity Framework, along with Stored Procedures for efficient database operations and performance optimization.

Driving & Vehicle License Department (DVLD) 09/2024 – 11/2024

- A desktop application designed to manage driving licenses and vehicle registrations efficiently. Key features include applying for local and international licenses, managing applications, renewals, and tests, and efficiently detaining and releasing licenses.
- Technologies: .NET Framework(C#), WinForms, SQL Server, T-SQL, ADO.NET, with 3-Tier Architecture

TECHNICAL SKILLS

Programming Languages
C#, C++, dart

Mobile Development
Flutter, (Getx state management).

Version Control & APIs
Git, GitHub, RESTful APIs, JWT, Swagger.

Soft Skills
Problem Solving, Communication, Team Work, Attention to Detail, Time Management.

Frameworks and Technologies
.NET Framework, .NET Core, ASP.NET Core (Web API), EF-Core, ADO.NET, WinForms.

Database Management
SQL, MS SQL Server, T-SQL, Database Design.

Data Handling & Practices
LINQ, Data Structures, Algorithms, SOLID Principles, Design Patterns, clean architecture, CQRS

COURSES & ACHIEVEMENTS

Completed 29+ programming courses on Programming Advices 08/2023 – Present

Covering Problem Solving, Algorithms, Data Structures, C++, C#, OOP, .NET Framework, Database Management, SOLID Principles, and Entity Framework

Solved 70+ easy-level problems on LeetCode 08/2023 – Present

Demonstrating strong problem-solving skills.

EDUCATION

Bachelor of Islamic economy 2021
University of Islamic Sciences of Ayoun Ayoun- Mauritania

SPOKEN LANGUAGES

Arabic
Native

English
Intermediate
